Driven software engineer student with a passion for innovation and a proven ability to excel in collaborative environments, eager to contribute to cutting-edge solutions.

EDUCATION

Bachelor's in Software Engineering
Riphah International University - RIU
08/2022 – 05/2026

Intermediate in Computer Science
I.M.C.B, F-11/3, Islamabad
03/2019 - 04/2021

FEATURED PROJECTS

Inventory and Finance Management System
- Built a full-stack desktop application integrating inventory tracking with financial management for small businesses in Pakistan.
- Tools used: React, Electron, Node.js, Express, PostgreSQL, Prisma, Ant Design.

Wingman Tactical Store
- Designed a high-performance Shopify Hydrogen storefront with server-side rendering.
- Tools used: React Router 7, Shopify Hydrogen, Vite, Tailwind CSS v4, GraphQL, JavaScript.

Advanced Robotics Marketing Platform
- Built high-impact React marketing website for a humanoid robotics company targeting enterprise buyers and investors.
- Implemented 3D mouse-tracking hero, multi-layer parallax scrolling, sticky scroll card reveals, and Lottie animations.
- Tools used: React, TypeScript, Vite, Tailwind CSS, shadcn/ui, Radix UI, TanStack React Query, Lottie React.

AutoPanda Mobile Platform
- Built cross-platform Flutter marketplace connecting vehicle owners with auto repair service providers.
- Dual authentication flows, real-time in-app messaging, service provider onboarding, and payment gateway integration.
- Tools used: Flutter, Node.js, MongoDB, REST APIs, Payment Gateway SDKs.

EchoNote AI Meeting Assistant
- Built AI-powered SaaS platform with in-browser recording, Whisper transcription, and NLP-based meeting analysis.
- Extracts entities, key phrases, action items, and generates executive summaries using a fine-tuned Qwen2.5-7B LLM.
- Tools used: React, Node.js, Express, PostgreSQL, Prisma, OpenAI Whisper, SpaCy, Qwen2.5-7B, RecordRTC, HeroUI.

SA Fish Plus Inventory Management Desktop App
- Developed offline-first POS and inventory management desktop app for a seafood retail shop.
- Real-time dashboard, multi-unit stock tracking, quick sales recording with auto-deduction, and CSV reporting.
- Tools used: Python, PySide6 (Qt), SQLite3, Qt Stylesheets, Qt Threading.

KontrolAlt — Creator Intelligence Platform
- Full-stack creator discovery and qualification platform for Rumble and Substack content creators.
- Built scrapers (Patchright + BrightData residential proxies), Gate 0 competitor compliance checker, AI classification engine, and Celery/Redis async workers.
- Tools used: Next.js, FastAPI, PostgreSQL, Redis, Celery, Patchright, BrightData, OpenAI API.

SKILLS

C/C++ HTML CSS Java JavaScript
Python MySQL .NET Framework
ASP.NET MERN Stack ReactJS
AngularJS RESTful APIs integration NextJS

WORK EXPERIENCE

Front-End Intern | PTCL (03/2022 - 07/2022)
Assisted in the development of a web-based platform using React.js, enhancing interactivity.

Full-Stack Intern | Samhan Technologies
(04/2023 - 07/2023)
Developed a collaborative system for employees and managers to enhance project management and performance evaluations.

Front-End Intern | Eziline Software House
(03/2024 -06/2024)
Developed and maintained user-facing features using modern frontend technologies.

Machine Learning Intern | Nexus Pakistan
(03/2025 -06/2025)
Designed and developed ChatBot for both iOS & Android platforms using Chatbase.

CERTIFICATES

Process Map Data using C++ Adjacency List Shortest Path (12/2022 - 01/2023)
Acquired expertise in processing map data with C++ through Coursera's "Adjacency List Shortest Path" course.

IBM Full Stack Developer Certificate
(04/2023 - 07/2023)
Earned IBM Full Stack Developer Certificate on Coursera, mastering front-end, back-end and cloud technologies.

CRUD Operations using MongoDB NoSQL
(10/2023 - 11/2023)
Achieved proficiency in MongoDB NoSQL through Coursera's "CRUD Operations" course, enhancing database management skills.

Introduction to Relational Database and SQL
(10/2023 - 11/2023)
Mastered SQL fundamentals via Coursera's "Introduction to Relational Databases" course, enhancing database querying skills.
